

## ATTORNEY SPEEDING IS DENOUNCED

Atlanta, Ga., November 20.—Automobiles who violate the speed laws were held to be a serious injury to the cause of good roads by William G. Strickland, of Greenville, S. C., addressing the fourth annual convention of the Southern Appalachian Good Roads Association here this afternoon.

"Nothing makes the antagonism of country people more than the speeding of automobiles on the roads," said Mr. Strickland. "And until we get the farmers of the South solidly behind the good roads movement we will never attain our just progress. There are many farmers who are opposed to smooth and level roads, because they know the better the roads the faster the machines will run. The roads were intended for the man in the car, as well as the man in the automobile—and the former does not believe he should be chased into the ditch in order to get out of the way of the speed devil."

Following this address John Craft, president of the Alabama Good Roads Association, told the convention he was in favor of the adoption of resolutions condemning the speeding of automobiles on roads. Vigorous applause followed the suggestion, and it is said that the resolutions committee will report a resolution condemning speeding.

Eight addresses, dealing with road conditions in the different states, were made during the afternoon. The speakers and their subjects were: J. St. Julien Wilson, State Highway Commissioner of Georgia; Charles P. Light, West Virginia; Dr. Joseph Hyde Pratt, North Carolina; William G. Strickland, South Carolina; R. J. Freeman, Georgia; John Craft, Alabama; W. A. Nelson, Tennessee; and John G. Greer, South Carolina.

Senator Jonathan Bourne, of Oregon, who was scheduled to deliver an address before the convention to-night, telegraphed that it would be impossible for him to attend. His place on the program was taken by Congressman Burnett, of Alabama, who spoke on the subject of Federal aid for highways. The Congressman declared that the United States government should use more money on public highways and less on the construction of warships and equipment of its standing army.

## GIRLS NARROWLY ESCAPE DEATH

Washington, Ga., November 20.—One hundred girls narrowly escaped death early this morning when the only Catholic college exclusively for girls in Georgia, was totally destroyed by fire. The building, situated on the campus of the University of Georgia, was a large, modern structure, and was one of the finest in the South.

The conflagration was discovered at 1 o'clock this morning by Miss Jennie Holliday, aged sixteen, who was in the building. She immediately alerted the fire department, and the girls were quickly evacuated. The cause of the fire is still under investigation.

## FOREFATHERS AT FAULT

Baltimore, Md., November 20.—The problem that confronts us is to make vegetable life flourish in unnatural surroundings, made so by the ordinary methods of city construction," said Henry N. Castle, of Norfolk, Va., in addressing the eighth annual convention of the American Civic Association here to-day.

Mr. Castle is secretary of the convention on beautifying the city of Norfolk. "Had we, with our present experience," he continued, "the laying out of our cities and the towns, the problem would be a comparatively easy one, but our forefathers thought little of the present day problem, or of the result of their narrow planning."

"In laying out their cities they were influenced by their remembrance of the old world, where land was dear and space restricted, and so all along the Atlantic seaboard we have cities with narrow streets and little if any parkway areas."

Mr. Castle referred to Washington as affording an object lesson in the excellent results secured by well-supervised planning of trees. In presenting the report of the fly-fighting committee of the American Civic Association, Chairman Edward Hatch, Jr., expressed the hope that there may be no more fly-killing contests. This sentiment took the assembled fly-fighters by surprise, which was disappointed, however, when Mr. Hatch said:

## STILL COUNTING VOTE

Roosevelt Has Official Lead of 104 in California.

San Francisco, Cal., November 20.—Tabulation of a State vote for Roosevelt and Wilson, including the corrections on the official canvases by counties, shows a Roosevelt lead of 104. A change of sixteen in the San Francisco returns which has been announced will reduce the Roosevelt lead to eighty-eight, when recorded. Corrections at Sacramento of the official canvases from counties not yet reported may increase or overturn this plurality.

## OPPOSES IMMODESTY

Conference Goes on Record Against Improper Dress.

Greensboro, N. C., November 20.—Adoption of reports placing the seventh annual conference of the Christian Church of North Carolina and Virginia on record opposing immodesty in dress, gambling in social and other relations, cigarettes and shipment of whiskey into prohibition territory, strong denial of a report that the conference had adopted a resolution opposing the wearing of hats.

## Home Face Peeling Becomes Popular

(From Fashion Reporter.)

No complexion treatment yet discovered seems to have become so generally and so immediately popular as the mercurized wax process. Evidently the reason for this is that this method actually gets rid of a bad complexion, which can hardly be said of any other. To temporarily hide or bleach the defective skin with cosmetic is to compare with the effect of literally removing the skin itself. Mercurized wax takes off the offending surface skin in flour-like particles, a little at a time, until there is none left. The new cosmetic thus produced exhibits a healthy glow and girlish beauty obtainable in no other way. This wax, which you can get at your druggist's, is applied as follows: The face is washed with cold cream and washed off with warm water. Then a healthy glow and girlish beauty obtainable in no other way. This wax, which you can get at your druggist's, is applied as follows: The face is washed with cold cream and washed off with warm water.

## Four "Wilson" Babies Born to Four Sisters

(Special to The Times-Dispatch.)

Spencer, N. C., November 20.—At the Democratic birth rate continues at the average it made among representatives of one family since the election of Woodrow Wilson two weeks ago, Spencer will be an exceedingly hard place for a Republican to try to get a look-in. Three of four sisters, the daughters of Mr. and Mrs. R. L. Lewis, of old historic Trading Ford, made famous by the unimpaired experience there of General Cornwallis and General Green, have strengthened the Democratic fold by giving birth to brightly, robust sons, each of whom has been named after the Democratic President-elect, while the fourth sister gave birth to a girl, who bears the Wilson name. The parents of the babies are well and favorably known. The names of the babies and their parents follow:

Woodrow Wilson Waller, son of Mr. and Mrs. H. L. Waller.  
Glyde Wilson Leonard, son of Mr. and Mrs. C. H. Leonard.  
Carlton Woodrow Leary, son of Mr. and Mrs. C. A. Leary.  
Virginia Wilson Barringer, daughter of Mr. and Mrs. John Barringer.

A dance hall had been built at Elton College, and a sensational charge by Rev. S. B. Clapp that the Greenboro convention was an institution which permitted gambling within its walls, permeated the second day of the conference being held in the Christian Church of this city. Mr. Clapp later withdrew the statement, saying that it was made upon rumors.

## Girls Narrowly Escape Death

Washington, Ga., November 20.—One hundred girls narrowly escaped death early this morning when the only Catholic college exclusively for girls in Georgia, was totally destroyed by fire. The building, situated on the campus of the University of Georgia, was a large, modern structure, and was one of the finest in the South.

The conflagration was discovered at 1 o'clock this morning by Miss Jennie Holliday, aged sixteen, who was in the building. She immediately alerted the fire department, and the girls were quickly evacuated. The cause of the fire is still under investigation.

## EYEWITNESSES TELL STORY

Swears That He Saw Lawyer Gibson Murder Mrs. Sazo.

Goshen, N. Y., November 20.—Dr. M. O. King, official physician of Hudson County, New Jersey, testified for the State to-day in the trial of Burton W. Gibson, the New York lawyer, accused of the murder of Mrs. Rosa Menschik, who died last night in a rooming house at 150 West 15th street, New York City.

Dr. King testified that he saw Gibson enter the rooming house at 150 West 15th street, New York City, at 11 o'clock last night, and saw him enter the room of Mrs. Rosa Menschik, who died last night in a rooming house at 150 West 15th street, New York City.

Dr. King testified that he saw Gibson enter the rooming house at 150 West 15th street, New York City, at 11 o'clock last night, and saw him enter the room of Mrs. Rosa Menschik, who died last night in a rooming house at 150 West 15th street, New York City.

## DISCOVER DEAD BODY OF W. B. BELL IN HOTEL ROOM

(Continued From First Page.)

ous circumstances of finding the door locked from the inside and the key still in the lock, and reported the matter to the manager. A bell boy was sent into an adjoining room and finally succeeded in forcing open a door connecting the two rooms. He sprang back in horror at the sight of the lifeless body and fled to the manager.

Detective-Sergeant Wiley was dispatched on the case when police headquarters were notified by the hotel authorities, and was the first person to enter the room of death. He took immediate charge of the two notes and Bell's personal effects, notified the two Richmond men mentioned in the dead man's letter, and telephoned Coroner Taylor. The coroner viewed the body last night at the undertaking establishment of L. T. Christman and deemed an inquest unnecessary.

Was From Kentucky.

Bell, who was about twenty-eight years old, came originally from Owensboro, Ky., although he came to Richmond directly from New York about two years ago. He was occupying an apartment at the Hanover with F. P. Smith and C. C. Griffin, the two men mentioned in his note, who say he was giving satisfaction to his employers. No one was more shocked by the news of his death than Mr. Griffin, his roommate.

Safe for Woman's Use

Nothing is more annoying to a refined woman than offensive perspiration or body odor. Those who have used Tylenol's Antiseptic Powder know it to be the one remedy which never disappoints. For general use—deodorant in all cases—it should be in every household. Unquestioned as a deodorant, it is recommended by physicians everywhere, as it contains no poisons.

One 25-cent box makes two standard applications. All druggists or write for booklet and free sample.

J. A. Wynn, Chemist, Washington, D. C.

Blues-Blues Game Postponed

The game scheduled for Saturday between the Richmond Braves and the Norfolk Tides has been postponed until the following week, because of the weather. The game will be played on Saturday, November 24, at 2:00 p.m.

## DECISIVE DEFEAT FOR RADICAL WING

Federation of Labor Votes  
Against Principle of Industrial Unionism.

## DEBATE IS SPIRITED

Gompers Defends Present Policy,  
While Mitchell Favors  
Change.

Rochester, N. Y., November 20.—After a debate that lasted all day, members of the radical wing of the American Federation of Labor were defeated by a vote of nearly three to one in their attempt to have the federation adopt the principle of industrial unionism in place of its policy of trade autonomy. Two hundred and sixty-four delegates voted against the minority report of the committee on education, which favored the principle of industrial unionism, and seventy-two voted in its favor.

The voting strength of the convention, based on membership in representative bodies, was 10,000 against the minority report and 3,000 for it. After the minority report had been defeated the majority report in favor of the continuance of trade autonomy was adopted by acclamation.

The vote was the first test of strength between the radical and conservative wings, and the number of votes polled by the radicals was slightly under their advance estimate. The vote of the United Mine Workers (2,670) and the Western Federation of Miners (1,600) was cast solidly for the minority report. Other groups that lined up solidly with the radical wing were the bakers and confectioners, iron, steel and tin workers, printing pressmen, railway carmen and journeymen tailors.

The debate preceding the vote in said by veteran labor men to have been one of the most spirited that ever took place in a federation convention.

As a result of the adoption of the majority report the federation will continue, for a year at least, to recognize the independent autonomy of international and national unions affiliated with it, and whenever its policy of trade autonomy means unsuited to the industry it will introduce the principle of industrial unionism.

Among the speakers who advocated the adoption of the minority report were John L. Lewis, president of the United Mine Workers, and Joseph D. Cannon, of the Western Federation of Miners.

Defenders of the Federation's present policy were President Gompers, Andrew Furuseth, president of the Seamen's International Union; Henry D. Fearham, seventh vice-president of the federation, and Daniel J. Tobin, president of the International Brotherhood of Teamsters and Chauffeurs.

The committee on adjustment will make its report to-morrow, and the next day it is expected the second conflict between the radical and conservative forces will take place on the proposal of the radicals that officers of the federation be elected by a referendum vote of the 2,500,000 members.

## IN SUPREME COURT

Appeal Refused in Lynchburg Case—Yesterday's Proceedings.

In the Supreme Court of Appeals of Virginia yesterday an appeal was refused in the case of Alice L. and James L. Bell, vs. A. R. Long and Anna L. Jones, executors of the estate of James L. Bell, deceased. The Bell case had brought suit to set aside a deed made by James L. Bell, of Lynchburg, on the ground that it was merely made as security. In his reply, James L. Bell said that he had made a security transfer, but later had been made a conveyance in fee. The court held that the deed was valid, and the appeal was refused.

In court yesterday the case of Motley's administrator et al. vs. Samuel A. Anderson for the appellants and by H. K. Harris for the appellees, and submitted.

The case of C. C. Smith & Sons (Inc.) vs. Johnson was argued by James H. Price and A. P. Patterson for the appellants and by C. H. Keyser and James F. Strother for the appellees, and submitted.

Waterfront Coal Company vs. Smithfield Coal and Transportation Company was argued by James L. Bell for the appellants and by C. H. Keyser and James F. Strother for the appellees, and submitted.

The case of Duling et al. vs. Duling, and of Scott et al. vs. Timberlake et al., were dismissed.

Names to be called: Cardwell vs. Norfolk and Western Railway Company; Leary vs. Briggs; Mitchell vs. Williams; Amateur United Club of Richmond vs. City of Richmond.

## GOVERNMENT RAID COVERS COUNTRY

(Continued From First Page.)

cities in that part of the country. While it is declared that violations of the law are frequent in such cities as Boston, New York, Philadelphia and Baltimore, the accused persons, it is asserted, have been pursued closely by the State and Federal officials.

It is said by the post-office inspectors that a horde of this sort of criminality is in the Pacific coast States. There they had comparatively little difficulty in obtaining a mass of evidence against accused persons.

In San Francisco it is claimed a well-known name was used by several well-known persons, who employed a woman to do the necessary advertising and clerical work. Cases were solicited by correspondence and by printed circulars sent through the mails. Scores of complaints have been received by the department from respectable women, complaining of the receipt of this class of matter.

San Francisco Police Included.

Approximately 20 per cent of those arrested to-day are men who advertise their practice by correspondence or otherwise and used to express, various compounds in the form of pills or powders. Careful analysis of these compounds by the government authorities is said to have disclosed that some of them are wholly innocuous, while others are dangerous poisons. Under another section of the penal code the sending of poisons through the mails is a summary offense.

One of the men named in said to have been the secretary of the board of health in the city of his residence. He is reported to be a doctor or a health agent, and he has been indicted, according to the reports received by the post-office inspectors.
